

Marker Foot

Revelation Industries has been providing Marker Foot to hospitals across the nation for years.

Marker Foot is an advanced double sided adhesive system used to position X-ray markers on the film cassette. Marker Foot allows for quick and easy positioning of X-ray markers. The high quality adhesive continues to hold securely after numerous repositions.

- Handy, reusable adhesive for positioning X-ray markers on film cassettes
- Allows for quick, repeatable, accurate positioning
- Pre-cut self stick tabs last 10 times longer than ordinary tape
- Convenient dispenser box
- Each box contains 100 pre-cut tabs
- Marker side is stronger adhesive
- Cassette side is repositionable
